

Pentel *Imprint*™ Canada

Make the *White* Impression.

RECYCOLOGY™

Discover the best
Pentel®

The science of reduce, reuse, recycle

Pentel Canada is continuing its long-standing commitment to sustainability and social responsibility with Recycology™, an umbrella brand for its eco-friendly products.

- Recycology™ products have a minimum of 50%* recycled materials by weight.
- Many products are refillable to further lessen their environmental impact.
- Look for the green Recycology™ symbol to find these great products.

1974

The Pentel® Ibaraki Factory was recognized and honored for its waste water treatment facilities and its participation in environment friendly programs.

1992

Pentel® Corp. Began cooperation with the World Wide Fund for Nature (WWF), known as the World Wide Fund in the U.S.

1995

Pentel® completely abolished the use of substances which are harmful to the ozone layer.

1996

Pentel® developed the "Pentel® Environment Platform" to outline its philosophy of protecting the global environment and controlling pollution.

2005

Pentel adopted the "Pentel® Guidelines of Corporate Activities", which details our corporate social responsibility and intention to build a sustainable enterprise.

2007

Pentel® instituted the Recycology program in which all products are made from a minimum of 50%* recycled materials by weight.

TODAY

Pentel® carries a full line of products made from recycled plastic in all writing categories.

THE PENTEL PATH TO RECYCOLOGY™

Pentel created the Recycology™ program to enhance its mission of helping the environment by creating less waste and increasing recycling activity.

At Pentel®, we recognize that our natural resources represent our future. We are working hard to make a positive contribution to the environment by minimizing our use of natural resources.

Pentel is focused on protecting natural resources and the environment at all stages of the manufacturing process. In our Recycology™ products, we ensure that all products meet strict environmental standards and use both recycled content and post-consumer recycled content in these products.

Recycology embodies the 3Rs and we hope that you do too: Reduce, Reuse and Recycle

MAKING A LASTING IMPRESSION

For over 70 years, Pentel® has supplied the world with high quality writing instruments.

As a pioneering manufacturer, Pentel was the first to develop graphite lead and our Super hi-Polymer lead remains the most popular in the world. We also invented roller ball technology – the smoothest way to express ideas; as well as a variety of mechanical pencil inventions that are the hallmark of the industry.

We take pride in our craftsmanship and control the manufacturing process by producing every mechanical pencil, lead, eraser and pen in our own factories. No other manufacturer can match this commitment to excellence. In fact, Pentel is the only writing instrument company to ever receive the Deming Award in recognition of the highest standards of quality. Plus, we back all of our products with a limited lifetime warranty against mechanical defects to ensure you remain a happy Pentel user for as long as you keep writing.

We are equally committed to the environment and responsible manufacturing. Our Recycology™ products are environmentally friendly writing instruments that don't cost a fortune. Every product is produced from a minimum of 50% recycled materials and nearly all of them are refillable, reducing landfill contributions and saving you money.

Placing your brand on a Pentel writing instrument demonstrates a commitment to quality, performance and the environment that your employees and customers can appreciate and use for years to come.

We thank you for your business.

Make the *Write* Impression.
